Chapter 2: Personal Financial Planning

Section 2.1: Personal Financial Landscape

Objectives
After completing this section, students will be able to:

- Identify steps to develop a budget based on personal goals.
- Explain how to create personal financial statements.
- Discuss the benefits of creating a good recordkeeping system for financial documents.
- Explain how money management software can assist in financial planning.

Interactive Activities

Chapter 2: Service: The Heart of Hospitality

Instructions: Answer the following questions using what you learned in this chapter.

2.1 Customers Checkpoint

- The ____ is the main reason for the hospitality industry.

Answer:

- The ability to understand how another person feels is ____.

Answer:

2.2 Providing Quality Service Checkpoint

- When you provide the same good service and products to customers each time they come to your business, you are providing ____ quality service.

Answer:

- True or False?* Interactions between a customer and a staff member, like a phone conversation to make a hotel reservation, are called *word-of-mouth*.

Answer:

2.3 Hospitality Employees Checkpoint

- True or False?* In a hotel, the back-of-the-house employees include the valets bell attendants, and security officers.

Answer:

- A customer-focused employee is able to ____ custom

CHAPTER 1

Whole Numbers

Objectives

Information in this chapter will enable you to:

- Identify how digits and place values are used in positive and negative numbers.
- Compare sets of whole positive and negative numbers and use the greater than, less than, and equals sign symbols.
- Apply rounding to numbers, up or down, as used in cost estimations.
- Calculate addition, subtraction, multiplication, and division of whole numbers.
- Determine the square and cube of a whole number.
- Express both large and small numbers using exponents, powers of ten, and scientific notation.
- Use operations with negative numbers.
- Calculate expressions using the PEMDAS order of operation.

Technical Terms

addition	divisor	order of operation	scientific notation
borrowing	equals sign (=)	place value	square
carried over	exponent	plus sign (+)	subtraction
cube	factor	positive	sum
difference	minus sign (-)	powers of ten	superscript
digit	multiplication	product	
dividend	multiplication sign (×)	quotient	
division	negative	rounding	
division sign (÷)			

Math for Electricians

Rob Zachariason

Chapter-Opening Material

An **obtuse angle** is an angle that measures more than 90° but less than 180°. A **straight angle** measures exactly 180°.

Goodheart-Willcox Publisher

In geometry, a **surface** is defined as a two-dimensional plane. An example is *surface area*, which is the surface of the outermost boundary of a three-dimensional object.

Goodheart-Willcox Publisher

A **polygon** is a two-dimensional closed plane with any number of straight sides. See examples of common polygons in the following table:

Name	Triangle	Quadrilateral
Number of Sides	3	4
Shape		

Goodheart-Willcox Publisher

Review Questions

Name _____ Date _____

Mean and Median Values Exercise

Exercise 6-1

Find the mean and median values for each of the following sets of numbers.

- 12, 27, 11, 41, 87, 1, 5
Mean: _____
Median: _____
- 42, 99, 12, 3, 7
Mean: _____
Median: _____
- 15, 6, 7, 111, 73, 4, 5
Mean: _____
Median: _____
- 582, 345, 213, 12, 89
Mean: _____
Median: _____
- 77, 1, 2, 345, 54, 6
Mean: _____
Median: _____
- 66, 77, 88, 99
Mean: _____
Median: _____

Unknown Value Exercise

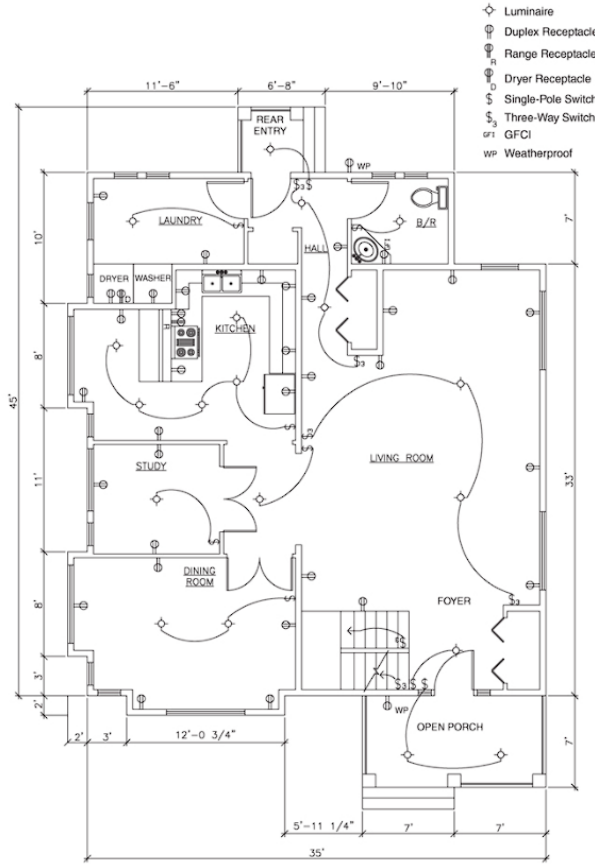

Exercise 6-2

Solve the following equations by finding the unknown value. Round answers to the nearest hundredth.

1. $X = 3(47 + 2)$

10.1 Practical Exercises

All of the various mathematical processes explained in this text—from simple arithmetic to complex trigonometry—

FIRST FLOOR ELECTRICAL PLAN
SCALE: 1/4"
