

## Quick Start Guide

### Spark Nano 7 Extended Battery Pack

1

Disconnect the attached **mini-USB cable** from the battery pack

2

Connect the battery pack to the **AC power adapter** and charge for approximately 20 hours.

3

Once fully charged, disconnect the power adapter and reattach the mini-USB cable to the battery pack. Connect it to your **Spark Nano 7** and place them in the case together.

Make sure the cable is connected securely on both ends and the case is locked. **You're ready to start tracking!**
