

How to link your GPS account to Alexa

Getting Started: First you will need to have an Alexa Compatible Device in order to access and link the Locate GPS platform.

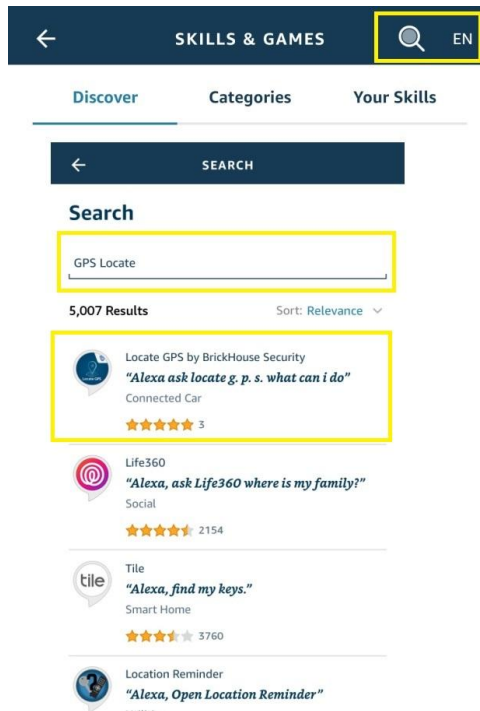

Step 1. Open your Alexa Application and select More

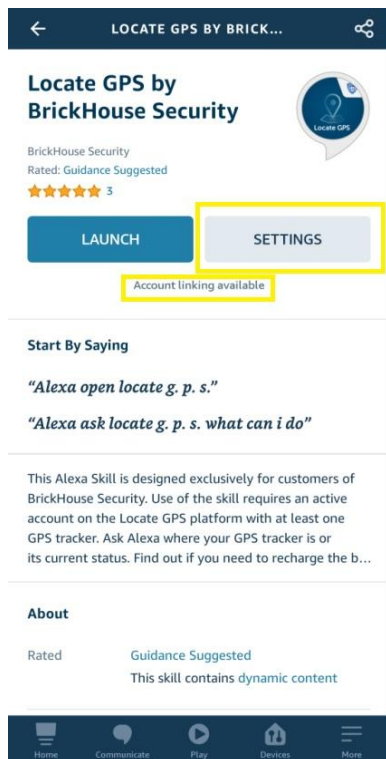

Step 2. Select Skills & Games

Step 3. In the search Icon type GPS Locate then select the GPS Locate application

Step 4. You will then see Account linking available. From here you will select Settings

Step 5. Then select Link Account, from here you will enter your credentials for the GPS Locate mobile application and sign in.

The image shows two side-by-side screenshots from a mobile application. The left screenshot is the 'Skill Settings' page for 'Locate GPS by BrickHouse Security'. It has a dark blue header with a back arrow and the text 'SKILL SETTINGS'. Below the header, there's a 'Skill Settings' title and a subtitle 'Locate GPS by BrickHouse Security'. A yellow box highlights the 'Link Account' button under the 'Account Linking' section. The 'Disable Skill' section is also visible. The right screenshot is the 'Alexa Skill linking Login' screen. It has a dark blue header with a close button, a lock icon, and the text 'Brickhouse Locate GPS' and 'voice.brickhousesecurity.com'. Below the header, there's a 'SECURITY' logo. The main content area has a title 'Alexa Skill linking Login' and a subtitle 'Sign in to link your account.'. A yellow box highlights the 'Username' field (containing 'Samanatha') and the 'Password' field (containing '*****'). Below the fields is a green 'SIGN IN' button, also highlighted with a yellow box. At the bottom of the right screenshot, there's a footer with the text 'Made with ❤️ by Golden M' and 'Current version: v1.1.0-pre-release3 - New York'.

Account Linking
Link Account
Linking your account provides access to personalized content. Disabling this skill will unlink your account. To re-link your account, disable the skill, re-enable it and link your account again.

Disable Skill
Disabling deletes any skill-related information. You will still be able to launch it at a later time.

DISABLE SKILL

Alexa Skill linking Login
Sign in to link your account.

"Alexa open locate g. p. s."

Close this window to return to the skill page.

CLOSE

Utilizing the Alexa Skills

To use the skill:

- Say, "Alexa, open Locate GPS."
- Use any one of the following commands to get the information you need.

Commands:

- Ask Alexa these simple command:
- Hey Alexa open GPS Locate
- Alexa Find my (GPS, Car, tracker...)
- Alexa Locate my (GPS, Car, tracker...)
- Alexa Where is my (GPS, Car, tracker...)
- Alexa What was my last trip
- Alexa Do I need to charge my (GPS, Car, tracker...)
- Alexa What is my Battery Level
- Alexa what is the Status of my (GPS, Car, tracker...)

Q. Are you unable to link your account?

- A. You should be using your username and password that is used for the Locate GPS platform access. Email: Registered and Password

Q. Alexa not responding to your command?

- A. Check to make sure your account is Linked in the Alexa App. Once connected you will get message saying Your Locate GPS by BrickHouse Security has been successfully linked.
