SERIES 2000™ NOTE VALIDATOR MODEL AE2800
CONFIGURATION COUPON | UNITED STATES - USD

This document is used with the Series 2000 note validator model AE2800 and the Series 2000 installation guide. Copy or print this page on a standard, carbon-based, black-and-white copier/printer. Copy or print on U.S. letter size (8.5 in x 11 in / 215.9 mm x 279.4 mm) paper at 100% scale for the coupon to properly function. When using a different paper size, make sure the coupon copies or prints at the dimensions provided below for it to properly function.

To prepare the configuration coupon:

1. Carefully cut out the coupon. The coupon should be the same size as a US note when complete.
2. Use the table below as a guide for filling out the configuration coupon. Use an HB or No.2 pencil to fill out each line of the coupon. Only fill 1 block on each line and completely fill each block as dark as possible. Do not make marks outside of the blocks or on the back of the coupon.

Section	Select Preference for:	Description
1	Bill Denomination	Fill in 1 block for $1 bill acceptance: • **High Accept** – For maximum bill acceptance. • **High Security** – For a higher level of discrimination. • **OFF** – To reject bills of that denomination.
2	Bill Denomination	Fill in 1 block for each denomination: • **High Accept** – For maximum bill acceptance. • **High Security** – For a higher level of discrimination. • **OFF** – To reject bills of that denomination.
