DW® Blackjack® Tower™ server

DW® Launches New Blackjack® Tower™ Server with 360Mbps Throughput

The versatile NDA/TAA compliant server comes preloaded with DW Spectrum® IPVMS and includes four recording licenses.

[Digital Watchdog® \(DW®\)](#), the industry leader in digital recorders, surveillance cameras and related management software, announces the release of our new Blackjack Tower server. This new mid-size desktop server model is ideal for medium to large scale applications, as part of a larger mesh of servers in multiple locations or as a single location solution.

The Blackjack Tower mid-size server is a reliable and high-performance solution for viewing, monitoring and recording

multiple IP cameras of any resolution at up to 360Mbps throughput. The server is National Defense Authorization Act/Trade Agreement Act (NDAA/TAA) compliant and includes Windows 10® OS, an Intel® i5 processor, dual network cards and local true HD, DVI and VGA outputs. The server comes preloaded with DW Spectrum IPVMS and four (4) recording licenses, accommodates up to 18TB internal storage, is ONVIF conformant and comes with a 5 year limited warranty.
