

Proteus MMX Mobile App System Requirements

Software Requirements:

iOS versions 9.0 or Later
Android 8.0 or Later
Windows 10

Hardware Recommendations:

Ruggedized device: Zebra ET50/ET55 (Windows 10 only, Windows 8 will not work)
Label Printer*: Brady BBP31 or Zebra ZD620

*Part Labels may be printed from the Proteus MMX web application or 3rd party software, and can be scanned from within the mobile app. The mobile app does not print barcodes. Barcode formats that can be read depend on the device chosen; Eagle recommends QR Codes for new implementations.
