Important Safety Instructions

- Before beginning any fitness program, you should obtain a complete physical examination from your physician. When using exercise equipment, basic precautions should always be taken, including the following:
- Read all instructions before using the equipment. These instructions are written to ensure your safety and to protect the unit.
 - Do not allow children on or near the equipment.
 - Use the equipment only for its intended purpose as described in this guide. Do not use accessory attachments that are not recommended by the manufacturer: such attachments might cause injuries.
 - Wear proper exercise clothing and shoes for your workout---no loose clothing.
 - Be careful when getting on or off the equipment.
 - Do not overexert yourself or work to exhaustion.
 - If you feel any pain or abnormal symptoms, stop your workout immediately and consult your physician.
 - Never operate the unit when it has been dropped or damaged.
 - Never drop or insert anything into any opening in the equipment.
 - Always check the unit and its cables before each use. Make sure that all fasteners and cables are secure and in good working condition.
 - Frayed or worn cables can be dangerous and may cause injury. Periodically check these cables for any indication of wear.
 - Keep hands, limbs, loose clothing and long hair well out of the way of moving parts.
 - Do not attempt to lift more weight than you can control safely.
 - Do not use the equipment outdoors.

Personal Safety During Assembly

- Read each step in the assembly instructions and follow the steps in sequence. Do not skip ahead. If you skip ahead, you may learn later that you have to disassemble components and that you may have damaged the equipment.
- Assemble and operate the equipment on a solid, level surface. Locate the unit a few feet from walls or furniture to provide easy access. The equipment is designed for your enjoyment. By following these precautions and using common sense, you will have many safe and pleasurable hours of healthful exercise with the equipment.

Instructions

Before beginning assembly please take the time to read instructions thoroughly. Please use the various lists in this manual to make sure that all parts have been included in your carton. When ordering, use part number and description from the lists. Use only our replacement part when servicing. Failure to do so will void your warranty and could result in personal injury.

The equipment is designed to provide the smoothest, most effective exercise motion possible. After assembly, you should check all functions to ensure correct operation. If you experience problems, first recheck the assembly instructions to locate any possible errors made during assembly. If you are unable to correct the problem, call your authorized dealer. Be sure to have your serial number and this manual when calling. When all parts have been accounted for, continue on.

Tools Required

Punch Wrench

Wrench

Rubber Mallet

Hex Key Wrench Set

Parts List

Note: some of these parts may come pre-installed.

ITEM#	PART NAME	SPEC	QTY
1	Left Weight Frame		1
2	Right Weight Frame		1
3	Back Pad Fixing Rack Frame		1
4	Connector Frame		1
5	Pedal Connector Welding		1
6	Pedal Frame		1
7	Seat Pad Adjustment Frame		1
8	Pedal Circular Tube Frame		1
9	Diamond Plate	610×498×3	1
10	Connecting Plate	180×56.5×6	1
11	Seat Pad	338×336×68	1
12	Back Pad	996x324x64	1
14	Button Head Cap Bolt M10×30	M10×30	7
15	Flat Head Cap Screw M10×70	M10×70	4
17	Hex Head Bolt M12×35	M12×35	18
18	Hex Head Bolt M12×80	M12×80	2
19	Nut M10	M10	4
20	Nut M12	M12	2
21	Flat Washer Φ11×Φ20×2	Φ11×Φ20×2	11
22	Flat Washer Φ13×Φ24×2	Φ13×Φ24×2	22
23	Barbell rack frame		4
24	Flat Washer Φ13×Φ37×3	Φ13×Φ37×3	4
25	Button Head Cap Bolt M12×30	M12X30	4
26	Rubber sleeve A	Φ48×Φ78×30	4

Measurement Guide

Cross Recessed Pan Head Tapping Screw

Hex Socket Set Screw with Flat Point

Flat Head Cap Screw

Button Head Cap Screw

Assembly

Step 1

Attach Left Weight Frame(#1), Right Weight Frame(#2), Connector Frame(#4) together

Using
8×Hex Head Bolt M12X35 (#17)
8×Flat WasherΦ13×Φ24×2 (#22)

Fasten Bolts According to the Assembly Requirements.

Step 2

1. Attach Back Pad Fixing Rack Frame(#3) to Connector Frame(#4)

Using:

4×Hex Head Bolt M12X35 (#17) 4×Flat WasherΦ13×Φ24×2 (#22)

2. Attach Pedal Circular Tube Frame (#8) to Back Pad Fixing Rack Frame(#3)

Using:

1×Connecting Plate(#10)

2×Hex Head Bolt M12X80 (#18)

2×Nut M12 (#20)

4×Flat WasherΦ13×Φ24×2 (#22)

3. Attach Seat Pad Adjustment Frame(#7) to Back Pad Fixing Rack Frame(#3) and fasten Hex Head Bolt M8×25

Step 3

1. Attach Pedal Connector Welding(#5), Pedal Frame(#6) to Connector Frame(#4) according to the diagram

Using:

6×Hex Head Bolt M12X35 (#17)

6×Flat WasherΦ13×Φ24×2 (#22)

2. Attach Diamond Plate(#9) to Pedal Connector Welding(#5), Pedal Frame(#6)

Using:

4×Flat Head Cap ScrewM10×70 (#15)

4×Nut M10 (#19)

4×Flat WasherΦ11×Φ20×2 (#21)

Step 4

Attach one Seat Pad(#11), one Back Pad(#12) to the Back Pad Fixing Rack Frame(#3) and Seat Pad Adjustment Frame(#7) according to the diagram
Using

7×Button Head Cap Bolt M10×30(#14) 7×Flat Washer $\Phi 11 \times \Phi 20 \times 2$ (#21)

Fasten Bolts According to the Assembly Requirements

Step 5

1. Assemble the four barbell bar frames (# 23) onto the left frame assembly (# 1) and the right frame assembly (# 2) respectively

Using:

4X Flat Washer $\Phi 13 \times \Phi 37 \times 3$ (24#) 4X Button Head Cap Bolt M12×30 (25#)

Maintenance Schedule

ROUTINE	COMMERCIAL MAINTENANCE	HOME MAINTENANCE	LATEST DATE ENTRY						
Inspect: Links, Pull Pins, Snap Locks, Swivels, Weight Stack Pins	DAILY	WEEKLY							
Clean: Upholstery	DAILY	WEEKLY							
Inspect: Cables or Belts and their tension	DAILY	WEEKLY							
Inspect: Accessory Bars, and Handles	WEEKLY	3 MONTHS							
Inspect: All Decals	WEEKLY	3 MONTHS							
Inspect: All Nuts and Bolts, Tighten if needed	WEEKLY	3 MONTHS							
Inspect:Anti-skid Surface	WEEKLY	3 MONTHS							
Clean&Lubricate: Guide rods with a Teflon(PTFE) based lubricant(Superlube)	MONTHS	3 MONTHS							
Lubricate: Seat Sleeves, Turcite Bushings, Linear Bearing	MONTHS	3 MONTHS							
Clean and Wax: All Glossy Finishes	6 MONTHS	YEARLY							
Repack with Grease: Linear Bearings	6 MONTHS	YEARLY							
Replace: Cables, Belts and Connecting Parts	YEARLY	3 YEARS							

General Maintenance Information

Links, Pull-Pins, Snap Hooks, Swivels, Weight Stack Pins:

- Check all pieces for signs of visible wear or damage.
- Check springs in snap hooks and pull-pins for proper tension and alignment.
- If the spring sticks or has lost its rigidity, replace it immediately.

Upholstery:

- To ensure prolonged upholstery life and proper hygiene, all upholstered pads should be wiped down with a damp cloth after every workout.
- Periodically take the time to use a mild soap or approved vinyl upholstery cleaner to deter the onset of cracking or drying.
- Avoid using any abrasive cleaners or cleaners not intended for use on vinyl.
- Replace ripped or worn upholstery immediately.
- Keep sharp or pointed objects clear of all upholstery.

Decals:

- Inspect and familiarize yourself with any safety warnings or other user information posted on each decal.

Nuts and Bolts:

- Inspect all nuts and bolts for any loosening and tighten if needed.
- Go through a re-tightening sequence periodically to ensure that all hardware is tensioned proper.

Anti-Skid Surfaces:

- These surfaces are designed to supply secure footing and need to be replaced if they appear worn or become slippery.

Belts and Cables:

- We use only high quality belt, and mil-spec cables.
- Visually inspect the belts and cables for fraying, cracking, peeling or discoloration.
- While the machine is not in use, carefully run your fingers along the belt or cable to feel for thinning or bulging areas.
- Replace belts and cables immediately at the first signs of damage or wear. Do not use equipment until belts or cables have been replaced.

Weight Training Tips

Belt and Cable Tensions:

- Referring to the Owner's Manual, when belts or cables are used check all bolts attachment to be sure they are properly attached.
- Check slack in cables and re-adjust cable tension if needed.

Seat Sleeves, Guide Rods:

- Wipe down adjusting tubes with a dust free rag before applying lubricant.
- Lubricate seat sleeves and Guide Rods with silicon or Teflon based lubricant spray.

Linear Bearings:

- Referring to the owner's manual carefully disassembly the bearing from its housing and place a finger full of light grease (lithium, super lube, etc) into the inside of the bearing. Use your finger, press the grease into the ball-bearings and their tracks. Repeat until the ball-bearing tracks are full of grease. Insert the shaft back into the bearing and wipe off excess grease.

Use this manual to guide you through the basic exercises you can perform on your equipment. To gain maximum results and avoid possible injury, consult a fitness professional to develop your complete exercise program.

Always consult your physician before starting any exercise program.

To be successful in your exercise program, it is important to develop an understanding of the basic principles of strength training. Now that you have your equipment, it is only natural that you want to get started immediately. First, determine a set of realistic goals and objectives for yourself. By deciding on an exercise plan that is right for you prior to starting, you will contribute significantly to your success.

Warm up properly before engaging in weight resistance training. Stretching, yoga, jogging, calisthenics or other cardiovascular exercise can help prepare your body for the heavier workload of lifting weights.

Learn how to perform the exercise correctly before using heavy weight. Correct form is important to avoid injury and to ensure that you work the proper muscle groups.

Know your limitations. If you are new to weight training or are embarking on an exercise regimen after a long layoff, start slowly and build foundational strength over a longer period of time.

Pay attention to your breathing. Exhale when you exert is a general rule of thumb. Never hold your breath.
