

G-W Assessment Quick Start Guide for Brightspace Administrator - LTI 1.3

This quick start guide provides instructions for integrating G-W Assessment with Brightspace. The process should take five to ten minutes. The LTI tool configuration information will be provided in a separate document.

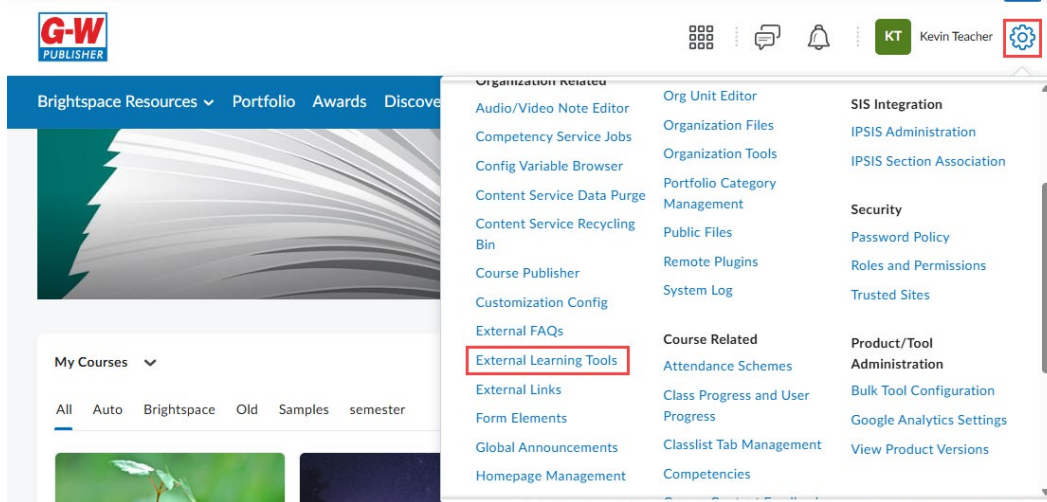

1. From the homepage, select the gear wheel icon () and then select **”Manage Extensibility”**.

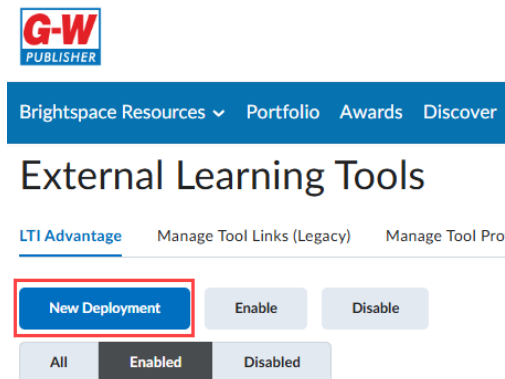

2. From this screen select the **“LTI Advantage”** tab.
3. Select the **“Register Tool”** button.

4. On this page, select the radio button for **“Standard”** and the page should update with text fields to fill in.
 - a. Name: G-W Assessment
 - b. Description (optional): GWA Application
 - c. Domain: <https://api.examspark.com>
 - d. Redirect URLs: https://api.examspark.com/lti/v1p3/auth_response
 - e. OpenID Connect Login URL: <https://api.examspark.com/lti/v1p3/init>
 - f. Target Link URI: https://api.examspark.com/lti/v1p3/auth_response
 - g. Keyset URL: <https://api.examspark.com/lti/v1p3/.well-known/jwks.json>
5. After the Keyset URL is input, the Extensions check boxes should be selectable. Check **“Assignment and Grade Services”** and **“Deep Linking”**.
6. The **“Roles”** *Send Institution Role* should be checked by default, leave this as is.
7. At the bottom, select the **Register** button. You will be brought back to the previous page.
8. Select the gear icon in the top right and navigate to **“External Learning Tools”**.

9. Select the **“New Deployment”** button.

10. Under the Tool drop down menu, select the “**Registered Tool**” you created called G-W Assessment in the previous steps.
11. Add the name of the deployment, “**G-W Assessment**”.
12. For the description (optional), add G-W Assessment Instructor.
13. Under “**Extensions**” *Assignment and Grade Services* and *Deep Linking* should be automatically checked.
14. Under “**Security Settings**”, check the following settings:
 - a. Org Unit Information
 - b. User Information
 - i. Name (First Name and Last Name)
 - c. Email
 - d. Link Info
 - e. Information
 - i. Title

Security Settings

Select the information to share with the tool:

- Anonymous
- Org Unit Information 
- User Information
 - Name
 - First Name
 - Middle Name
 - Last Name
 - Email
 - User ID
 - Username
 - Org Defined Id
- Link Information
 - Title
 - Description
- Classlist including users not known to this deployment 

Important Note: If the correct security settings are not selected, you may encounter an “Unauthorized” page when attempting to launch G-W Assessment. Having all the required settings listed above selected and verified within the Tool Provider will prevent this issue.

15. Under “**Configuration Settings**”, check *Grades created by LTI will be included in Final Grade* and *Auto Create Grade Items*

16. Under “**Custom Parameters**” select the + *Add Custom Parameters* and two text fields should appear called Name and Value. For Name, add app_key. For value, locate the App Key Value section in your integration document and copy the Key into the value text box.

Custom Parameters

[What are Custom Parameters used for?](#)

Name *	Value
<input type="text" value="app_key"/>	<input type="text" value="12ab34cd-5ef6-78gh-90ij-kl123jk456lm"/> X

+ Add Custom Parameter

17. Select “**Add Org Units**”.

Make tool available to:

The Organization: G-W, GW X

18. Use the search bar to find your primary organization so the G-W Assessment application will be available for your classes. Check the box next to your primary organization and then select “**All Descendants**” then “**Add**”.

Add Org Units X

6 Search Results

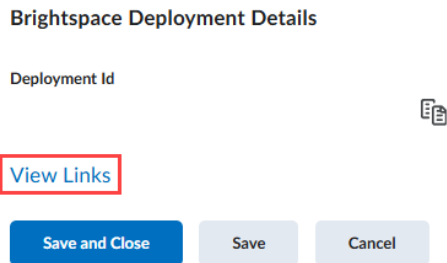

<input type="checkbox"/>	Org Unit ▲	Type	Options
<input type="checkbox"/>			<input type="radio"/> This org unit
<input checked="" type="checkbox"/>	G-W, GW		<input checked="" type="radio"/> All descendants
			<input type="radio"/> All descendants of type: ▼

- a. This may vary depending on how your Institutions Org Units are set up. If you are setting up for multiple classes under one Org Unit, it is easiest to select *All Descendants*.

Important Note: Selecting the incorrect Org Units or Options can cause an “Unauthorized” page when trying to launch into G-W Assessment. To avoid this,

make sure the tool is available to all Org Units or All descendants are granted access.

19. When all information has been entered and Org Units have been selected, select the **“Create Deployment”** button.
20. A menu will show up with your deployment ID, you can close this window. If you ever need your deployment ID, it will display within the deployment.
21. You will now see your deployment show up in the External Learning Tools menu.
22. Click back into the deployment you created and scroll down to the bottom of the page to find **“View Links”**. Select this to navigate to your Links page.

23. Select the **“New Link”** button.
24. In the **“Name”** add *G-W Assessment Instructor Launch*.
25. From your integration document, locate the **“Launch Link URL”** section, copy the URL in the document and paste it into the URL field.
 - a. This link should be hidden by the instructors when they add it to their course, so it is not visible to the students.
26. In the **“Description”** (optional), add GWA Instructor Launch.
27. In the **“Type”** drop down, select *Basic Launch*.
28. Select **“Save and Close”**.
29. Select the **“New Link”** Button again.
30. In the **“Name”** add *G-W Assessment Content Selection*.
31. From your integration document, locate the **“Content Link URL”** section and copy the URL in the document and paste it into the URL field.
32. In the **“Description”** (optional), add GWA Content Selection.
33. In the **“Type”** drop down, select *Deep Linking Quicklink*.
34. Select **“Save and Close”**.
