

## **Positive Pay Walkthrough**

Follow these steps to complete a Positive Pay transaction

- 1. Export Checks from Accounting Core
  - a. Select company/property you printed the checks from.
  - b. Go to Maintenance->Export->Checks.

- c. Click new in the upper left
  - i. In the drop down select your bank account
  - ii. Select the date range/check numbers
  - iii. Select the radio button for checks
  - iv. Click OK

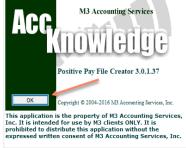

- d. The export will go to your export folder for Accounting Core as a .txt file
- 2. Install Positive Pay. The program can be downloaded here.
  - a. Double click on the icon the set up created on your desktop and click OK to open.

b. Select your bank \*\*See notes at the end of this document for bank info

c. Click on the ... button to select the first Destination folder. This is where you will find the

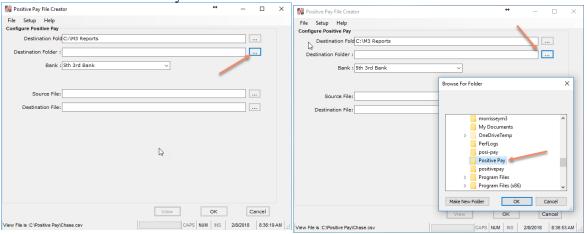

exported file from Accounting Core

d. Click ok

e. Do the same for the  $2^{nd}$  Destination folder. This can be the export folder or in this example I

created a folder named Positive Pay.

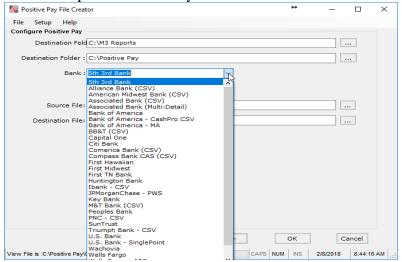

f. Click ok

Use the drop down to select your bank.

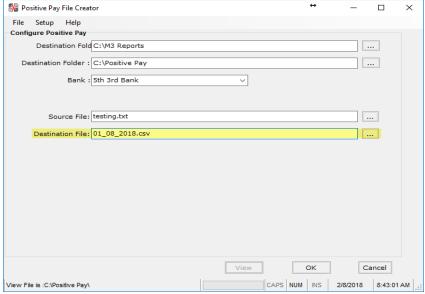

g. Click the ... button to select the source file. This is the file that you exported from Accounting Core. It will automatically go to the 1<sup>st</sup> destination folder. In this example C:\M3 Reports Select the file, in this case it's names testing.txt

Click Open

h. Choose a name for the converted file. in this case I names it the current date. If your bank requires a ,csv file then make sure to give it a file extension. In this example I named it 01\_08\_2018.csv

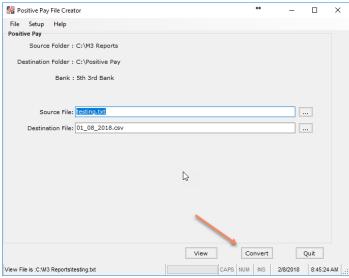

i. Now click ok

- 1. Notice that the ok button changed to Convert and the destination folder and bank name locked in place.
- j. Click convert

k. The file is now converted to the way your bank likes it. You will find it in the 2<sup>nd</sup> destination folder as we set earlier. In this example it is C:/Positive Pay.

1. You can upload this file to you bank!!!
