

Counseling and Testing

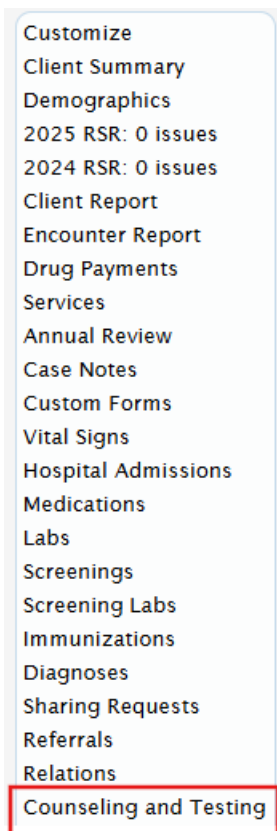

CAREWare 6 features a Counseling and Testing tab in client records for tracking:

- Status of pre-test counseling
- Pre-test date
- Status of HIV testing
- HIV test date
- HIV test result
- Status of post-test counseling
- Date of post-test counseling
- Reason why counseling was not provided
- Post-counsel referral status
- Status of partner notification being offered
- Number of partners notified
- Comments

Adding Counseling & Testing Records

Counseling and testing records are added under the client record in the provider domain.

1. Client *Counseling and Testing* in the left menu.

2. Click *Add*.

Find Client > Search Results > Counseling and Testing

View **Add** Delete Help Print or Export Hide/Show Columns

Counseling Testing Data

Search:

Pretest Counsel	Pretest Date	Tested	Test Date	Test Result	Posttest Counsel	Posttest Date	Reason no	Post Counsel Refe	Partner N	Num	Provider	Comments
-----------------	--------------	--------	-----------	-------------	------------------	---------------	-----------	-------------------	-----------	-----	----------	----------

Options for Counseling and Testing records.

View: View an existing Counseling and Testing Record

Add: Add a new Counseling and Testing Record

Delete: Delete an existing Counseling and Testing Record

Help: Access the CAREWare Knowledge Base article for Counseling and Testing

Print or Export: Print or export the list of counseling and testing records for the client

Hide/Show Columns: Choose which columns to show or hide in the client's counseling and testing history

3. Complete the fields for Pretest Counseling, Pretest Date, Tested for HIV, Test Date, Test Result, Posttest Counsel, Posttest Date, Reason no Counsel (if no is selected for Posttest Counsel), Posttest Referred, Partner Notification Offered, Number Notified, and Comments.
