

Pregnancy History

Purpose	Record pregnancy history in CAREWare 6 for reporting, quality management, and program needs.
Who should do this	CAREWare staff who enter or review pregnancy history in a client record.
Use this guide when you need to	Add a pregnancy record, review an existing record, or manage the pregnancy history list.
Main warning	Check all dates, the pregnancy outcome, newborn HIV status, and ART information before saving.

Quick path: Client record > Pregnancy History > Add > complete the pregnancy and ART fields > Save

Pregnancy History Data for the RSR

The First day of LMP field helps answer RSR Question 64, which asks whether the client was pregnant.

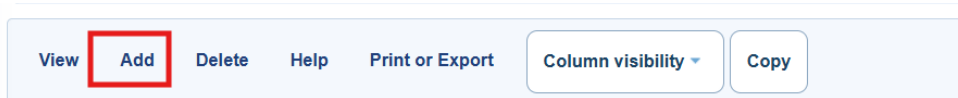

Important: Enter the First day of LMP accurately so pregnancy information is reported correctly.

Enter Pregnancy History in CAREWare

Step 1. Open the client record. Select Pregnancy History from the left menu.

Step 2. Select Add.

Pregnancy History

Prenatal ART Date *: 12/15/2025

How to Confirm It Worked

Confirm that the new record appears in the Pregnancy History list and that the main dates and pregnancy details are correct.

Troubleshooting and Common Questions

What if I need to review a saved record?

Select the record in the Pregnancy History list, and then select View.

What if I entered the wrong information?

Open the record and correct the information if your access allows it. Review all fields again before saving.

How do I remove a pregnancy record?

Select the record, and then select Delete. Make sure you selected the correct record before you confirm.
