

# Grading Periods added to Canvas

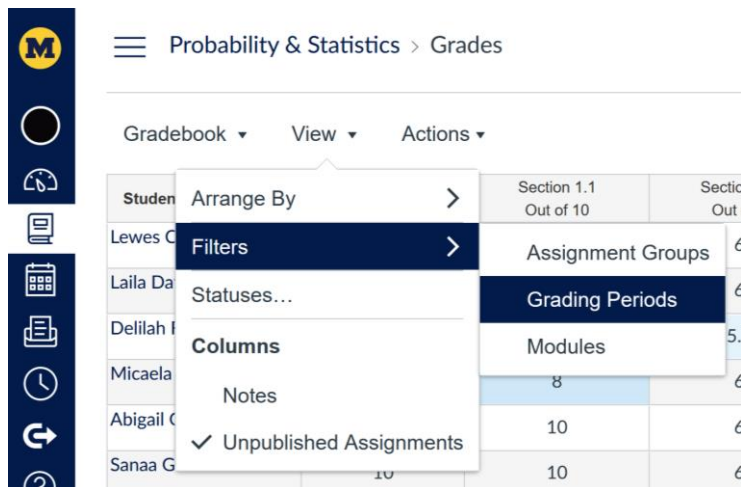

Grading periods have been added to Canvas.

What this means is that you can limit what assignments can be viewed in “Assignments” and “Grades” by marking period. This is similar how assignment are place in marking periods in the gradebook in PowerSchool. Everything based upon the “Due Date” of the assignment.

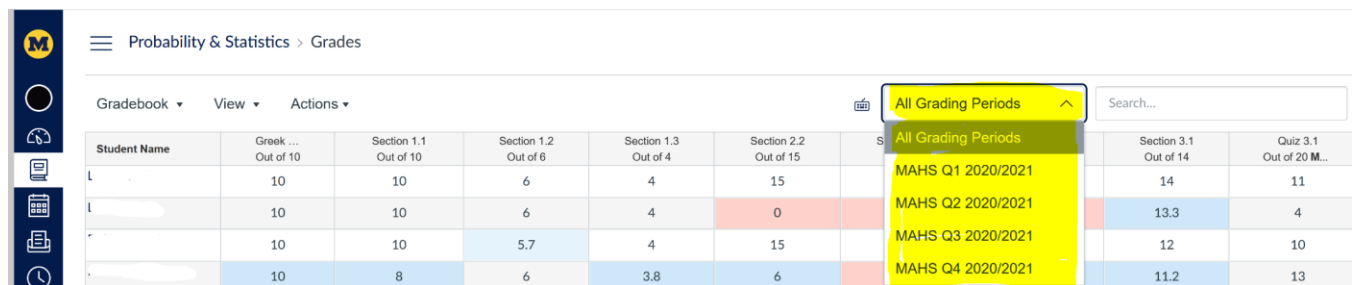

## In Grades...

View => Filters => Grading Periods

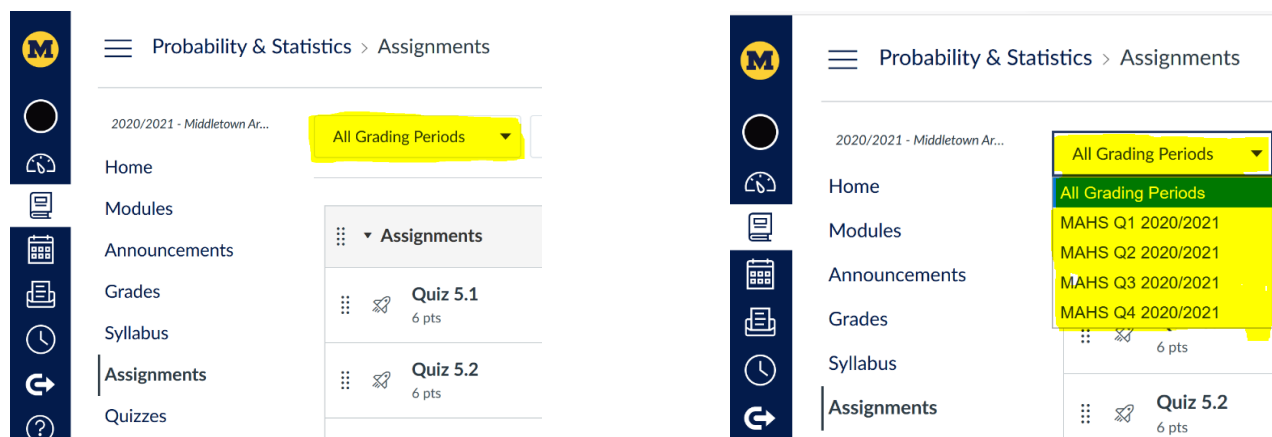

This toggles on/off the option to filter by grading period.

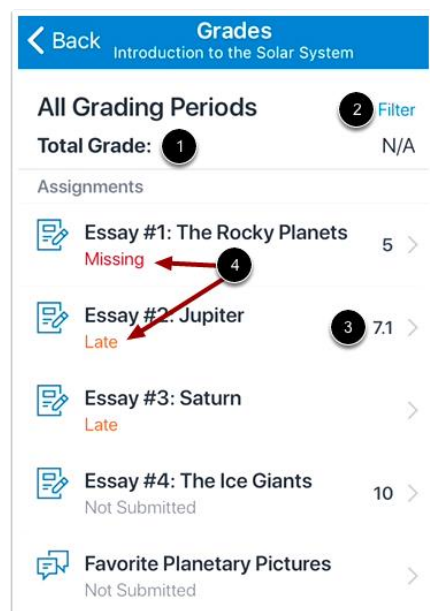

## In Assignments...

Above the list of assignments, a drop-down selector should now be available where you can chose the grading period to be visible.

## Students Viewing Course Grades by Grading Periods

Students total score appears at the top of the page [1].

When courses are using Multiple Grading Periods, students can filter grades by grading period [2].
