

Hardware and Network Requirements

This document outlines the recommended hardware and network requirements that are needed in order to experience the best performance when using the **ReLi Med Solutions EMR** application.

Computers

This includes desktops, laptops, and tablet PCs.

Processor

Minimum :

Intel Core i5 processor (8th generation - 8xxx series or newer)
AMD Ryzen 5 processor (3000 series - 31xx or newer)

Recommended :

Intel Core i7 processor (8th generation - 8xxx series or newer)
AMD Ryzen 7 processor (3000 series - 31xx or newer)

Memory (RAM)

Minimum :

8 GB

Recommended :

16 GB

OS

Minimum :

Windows 10 Home
Windows 11 Home

Recommended :

Windows 10 (Pro or Enterprise)
Windows 11 (Pro or Enterprise)

Storage

Solid State Drive (SSD) (SATA, NVMe, M.2, or similar) with 20 GB free space
SSDs are recommended for significantly faster application loading and data access.

Network	Minimum : Wireless : 802.11g Ethernet : 100 Mbps (megabits per second)
	Recommended : Wireless : 802.11n or higher Ethernet : 1000 Mbps (megabits per second) or higher

Resolution	Minimum : 1024 x 768
	Recommended : 1280 x 800 (for optimal viewing)

Internet Connection

Download Speed	Minimum : 100 Mbps (megabits per second)
	Recommended : 200 Mbps (megabits per second) or higher

Upload Speed	Minimum : 20 Mbps (megabits per second)
	Recommended : 50 Mbps (megabits per second) or higher

Scanner (Optional)

*Scanners **MUST** be TWAIN compliant In order to interact with the ReLi Med Solutions EMR.*

ID Cards	Ambir nScan 690gt-AS High-Speed Vertical Card Scanner or a functionally equivalent scanner that is TWAIN compliant for efficient capturing of patient identification and insurance information.
-----------------	--

Documents	Epson Workforce ES-400 II Document Scanner or a functionally equivalent document scanner that is TWAIN compliant for digitizing patient charts, referral documents, and other paperwork.
------------------	---

Fax (Optional)

Machine	Should support a digital fax feature, allowing received faxes to be saved directly as PDF files. If a digital fax feature is unavailable, received physical faxes must be scanned using a document scanner (see Scanner section above) and saved as PDF files for import into the ReLi Med Solutions EMR.
Online Service	Must be HIPAA compliant to ensure the secure transmission and storage of protected health information.

Kiosk Devices (Optional)

These are the requirements for devices used for the Kiosk Patient Check-In application. The Kiosk application is web-based and designed to be compatible with most modern tablets and smartphones, allowing patients to utilize their own devices for check-in, potentially streamlining the process

Tablets (Android)	Tablet manufactured in 2018 or later.
Tablets (Apple)	iPad Pro (2nd Generation or higher) iPad (5th Generation or higher) iPad Air (3rd Generation or higher)
Smartphones	Most modern smartphones 2017 or later
