

**If Bitwarden does not auto fill**

# 1 Be on the website it did not autofill the login for

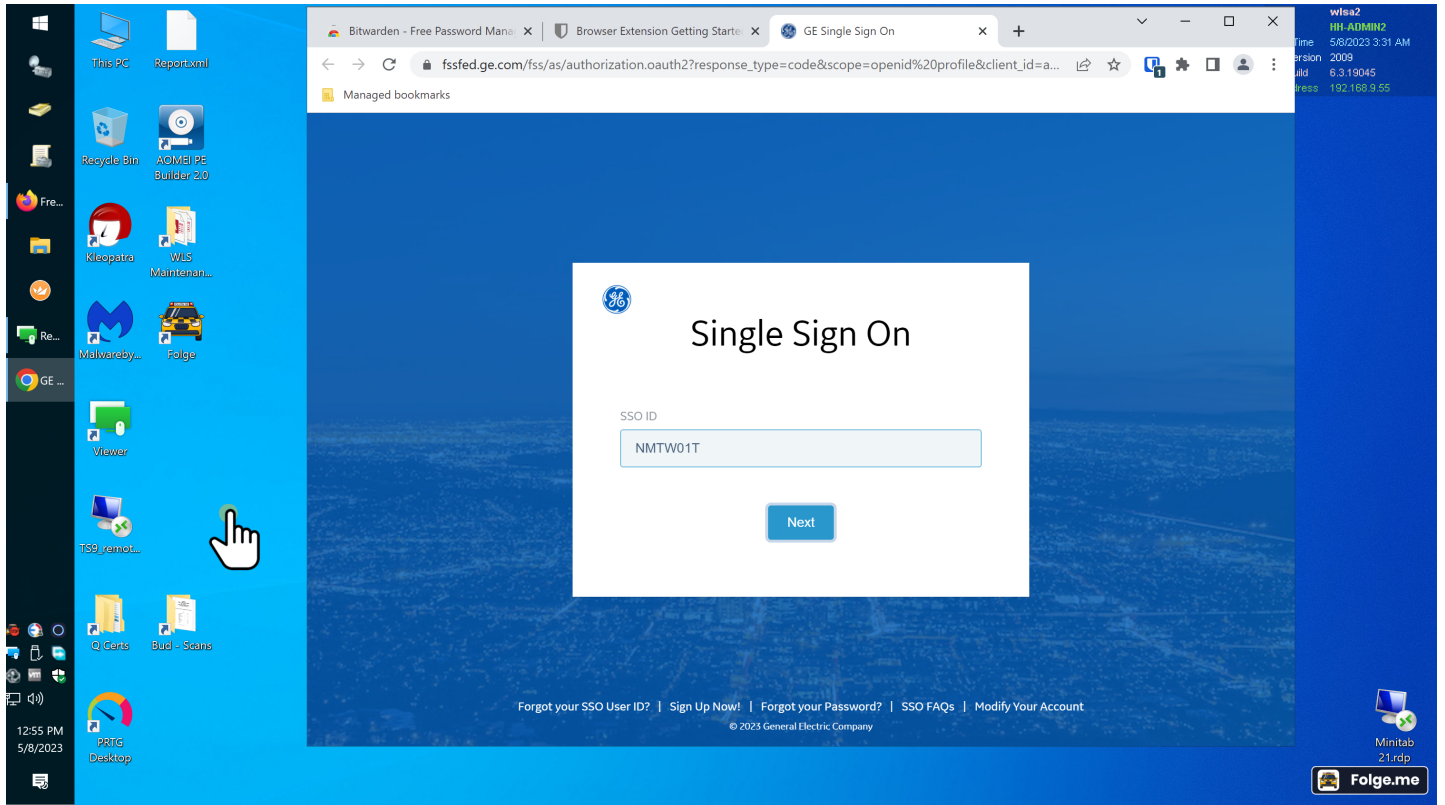

## 2 Click on bitwarden and Click on the login you see

Click on its name not the icons

### 3 On website that make you enter the username/email first it will fill that

## 4 Sometimes you may need to repeat the process for it to fill the password

On GE's website it was able to fill the password for us automatically
