

GoSilent

## PORTABLE CLIENT Quick Start Guide

MODEL: GSC-100

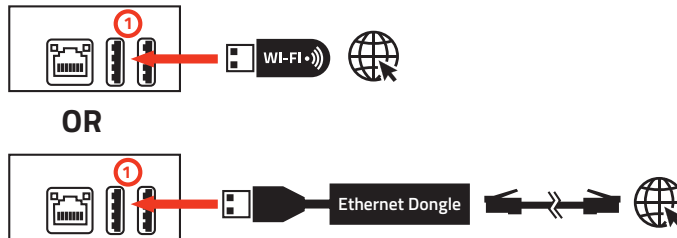

### Welcome

Thank you for selecting GoSilent as your network security platform-allowing you to extend your network security boundaries to include remote workers, IoT, and portable applications.

#### Set up your GoSilent Client

1. Connect the included WiFi or Ethernet adapter to either USB port **1**.

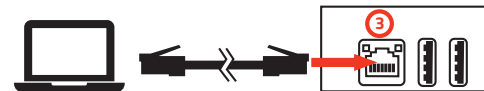

2. Connect the *GoSilent Client* to power using the provided USB cable to port **2** and wait 60 seconds.

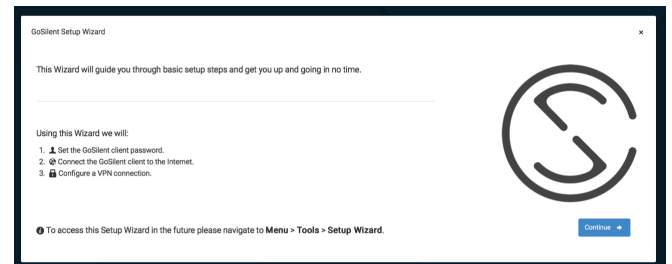

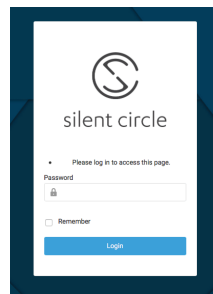

*Micro USB connection to Power (i.e. Power Adapter, Laptop, Powered USB Hub, etc.).*

3. Connect your laptop to the *GoSilent Client* using an Ethernet cable (not provided) to port **3**.

4. Open a web browser (preferably *Chrome* or *Safari*) and navigate to "**http://setup.gosilent**".  
*Note: If prompted, accept the self-signed certificate and proceed.*
5. Login to the web interface using the password "**gosilent**".
6. Follow the Setup Wizard to complete the initial setup process.

#### NOTE:

If you are connecting the *GoSilent Client* to *Silent Edge*, then you will need a Silent Edge Service Subscription.

If you are connecting the *GoSilent Client* to a *GoSilent Server* then you will need the following information from your GoSilent Server administrator (IT Dept).

#### Server Information:

1. Server WAN (Internet) IP Address - Ask GoSilent server administrator

#### Client 1 Information:

2. Client ID - Ask GoSilent server administrator
3. Client PSK - Ask GoSilent server administrator
