CHARGING YOUR POCKET JUICE CHARGER

NOTE: Your Pocket Juice Charger comes pre-charged. Depending on a few factors, some of the battery might have discharged during transit.
QUICK POWER TEST: Perform the test by pressing on the Power button. The LCD Power Indicator will display the current power level.

A Via AC Adapter/ Wall Charger: Using the provided Micro USB cable, connect your Power Bank (Micro USB port) to the AC Adapter (USB port - not included).

B Via Computer: Using the provided Micro USB cable, connect your Power Bank (Micro USB port) to the computer/laptop (USB port).

C Via Lightning Cable: Using a Lightning cable (not included), connect your Power Bank (Lightning port) to the AC Adapter (not included). It takes approximately 8-12 hours to fully charge your Pocket Juice Charger (from depleted unit). Once the charging is in progress, the LCD Power Indicator will display the power level. When the charging is complete, the LCD Power Indicator will display 100. It will remain lit until you disconnect your Pocket Juice Charger from the power supply.

NOTE: Once fully charged, the Pocket Juice Charger is able to re-charge most devices 8 times depending on the battery capacity of the device and the condition and age of the battery.

CHARGING YOUR PHONE OR OTHER PORTABLE DEVICE

1. Insert one end of the included Micro USB cable or the original cable that came with your device into the phone. Insert the other end into the USB port of the Pocket Juice Charger.
2. Turn the Power bank on by pressing the Power ON/OFF button, the charging process will start. Charging time will depend on the type of device. Your device will display the charging progress. When charging is complete, disconnect.

NOTE: For best performance, make sure that the Pocket Juice Charger is fully charged. Refer to opposite page for charging instructions.

IMPORTANT SAFEGUARDS

- Do not use this unit for anything other than its intended use.
- Keep the unit away from heat source, direct sunlight, humidity, water or any other liquid.
- Do not expose the device to extremely high or low temperatures, as it may damage the battery.
- Do not operate the unit if it has been wet or misted to prevent against electric shock and/or injury to yourself and damage to the unit.
- Do not use the unit if it has been dropped or damaged in any way.
- Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk.
- Keep the unit out of reach of children.
- This unit is not a toy.
