

Install Microsoft 365

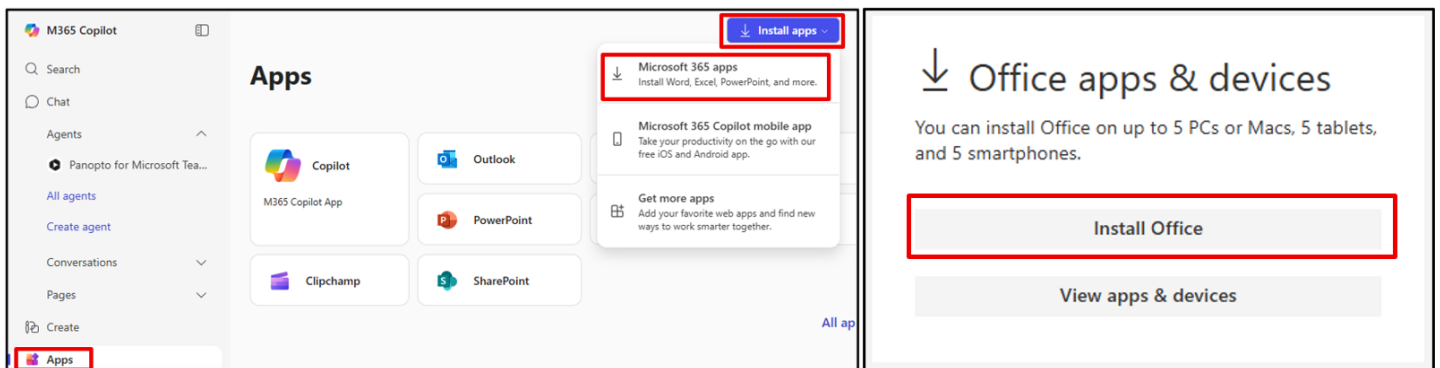

1. Go to Northwood Tech's website at www.northwoodtech.edu.
2. Click on MyCampus, and login with your Northwood Tech email address and MyCampus password.

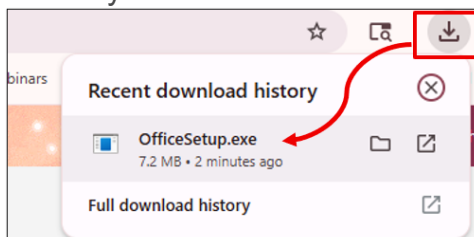

3. Click on Microsoft App Launcher in the upper left.
4. Click on Microsoft 365.

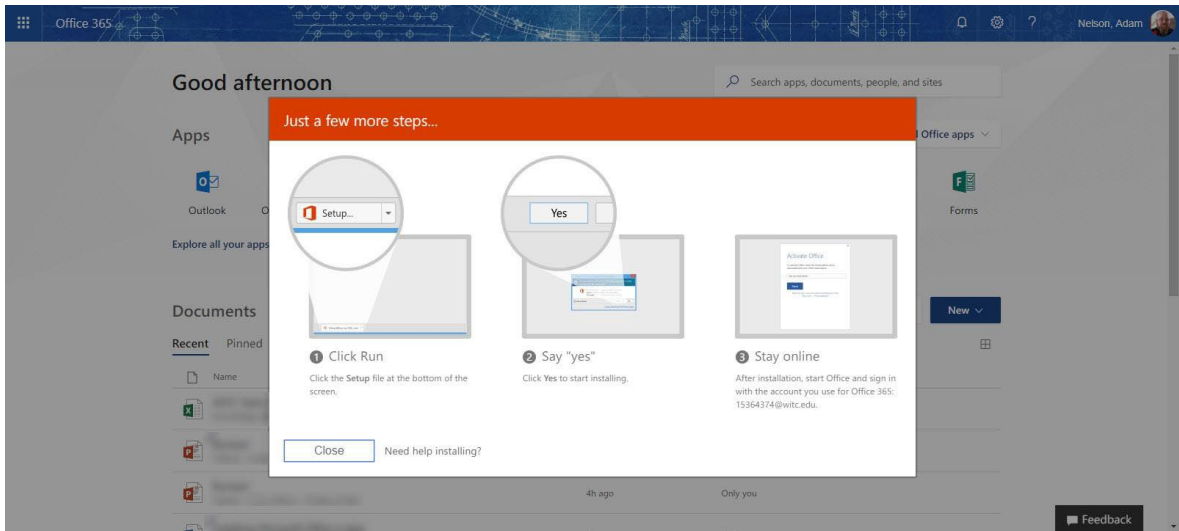

5. Click on Apps, Install apps dropdown menu, choose Microsoft 365 apps, and Install Office.

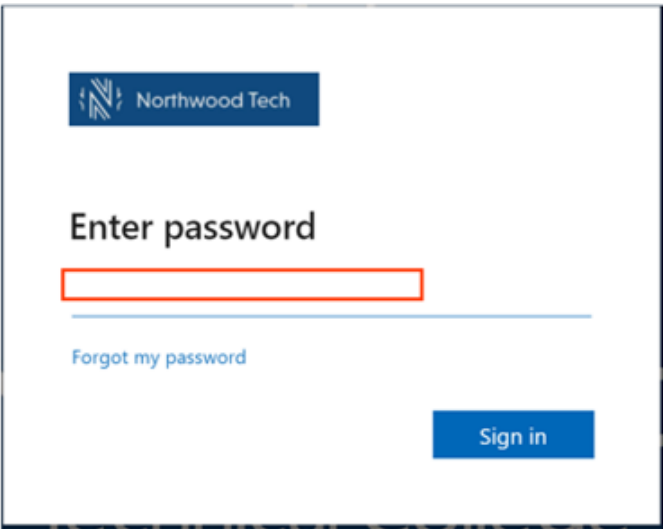

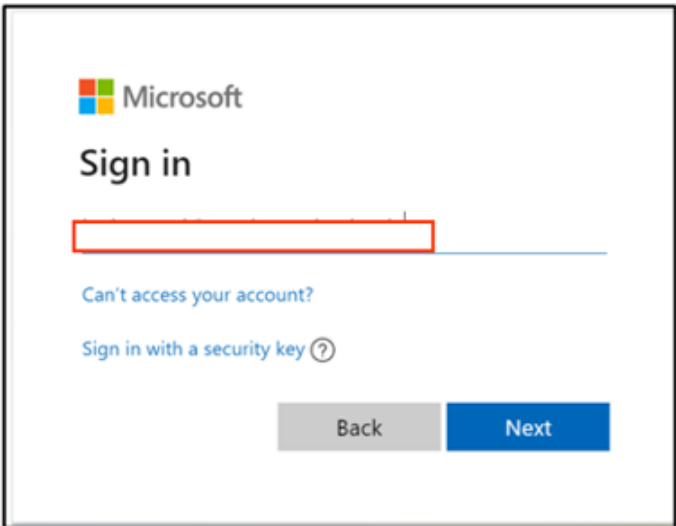

6. An OfficeSetup.exe file should populate. If not, look for the download icon to open the download history. Run the file.

7. Follow the directions that pop up in the window to start and complete the download of software.

8. After the software is installed, login with your Northwood Tech email address and MyCampus password. Example: jsmith1234@northwoodtech.edu

You are allowed 5 downloads of Microsoft 365
